

**README**

This Excel file is provided in the context of an update or revision of a recovery and resilience plan for the submission of structured data. It should include the modifications proposed to the components as compared to the Council Implementing Decision.

**Please only include information related to NEW, REMOVED or MODIFIED components. Changes that only concern the measure(s) and/or the milestone(s) and target(s) should be indicated in the relevant sheets ('Measures' and 'Milestones\_targets').**

For unchanged components, please select "U" in column A. No further input is needed. A component is only considered to remain unchanged if no information or element (e.g., milestone or target, costing information, etc.) is proposed to be modified.

For new components, please only provide the new component name (a component reference will be assigned at a later stage). A component reference will be assigned at a later stage.

All measures (and sub-measures) the new component comprises should be specified in the sheet "Measures".

Please do not modify or add any information in columns where a drop-down menu is available.

Please select from the drop-down menu whether you propose to modify, remove or leave unchanged the components included in your RRP, or to add a new component.	This column contains information as available in FENIX, based on the CID. Please do not make any changes (except for new components).	Please leave empty cells where there is no change as compared to the consolidated RRP.  Please fill in this column for modified and new components.	This column contains information as available in FENIX, based on the CID. Please do not make any changes.
(N)ew - (M)odify - (U)nchanged - (R)emoved	Component Name	Component name (revised)	Component Reference
M	Renewable energy sources and energy infrastructure		SK-C[C1]
M	Renovation of buildings		SK-C[C2]
M	Sustainable transport		SK-C[C3]
M	Decarbonisation of industry		SK-C[C4]
M	Adaptation to climate change		SK-C[C5]
